(7) INTERNATIONAL DIVISION.

Chair Mr. Newkirk presented no action items.

(8) JUDGING PROGRAM.

Chair Mrs. Baugh presented the following proposed Judging Program Rule additions.

SECTION XI, INTERNATIONAL DIVISION – JP Rule Judging Invitations 2.b	
Existing Wording	Proposed Wording
None. Addition to be added as a new paragraph.	<p>NON-CFA JUDGE’S KNOWLEDGE OF ENGLISH</p> <p>For a club to extend an invitation from a non CFA judge, that judge must have a working knowledge of the English language. They must be able to read the CFA Show Rules and Standards, plus have a basic proficiency of speaking the language to communicate with clerks and to conduct a final.</p>
<p>RATIONALE: Many complaints have come forth, basically from Russia, where some judges have no communication with clerks from outside Russia (meaning Europe). The universal CFA language in Europe (soon to be Region 9) is English. These judges cannot have a grasp of CFA show Rules & Standards, if they cannot read the English language. Exhibitors are in the rings having conversations in Russian with the judges and then what was previously awarded is changed and re-hung. This looks extremely bad to fellow exhibitors, but can’t be questioned as English is not spoken. There is a movement afoot from Europe to boycott future Russian shows, if this situation does not change.</p> <p>The JPC has discussed this, but it was not incorporated into the newly revised JP Rules, or Show Rules, as this would be an added new rule and needs Board approval.</p>	

Withdrawn.

Rule # ARTICLE XXVI – JUDGES FEES AND EXPENSES; SHOW RULE: 26.02.b.2 Judges Expenses	
Existing Wording	Proposed Wording
2. If traveling by air, Coach Class airfare, Judges, unless specifically told in writing not to do so by the contracting club at the time the original contract for the show is signed and returned to the judge by the club, shall attempt to purchase advance fare Coach Class tickets that are generally non-refundable and that are usually substantially lower in cost than regular Coach Class tickets.	2. If traveling by air, Coach Class airfare, Judges, unless specifically told in writing not to do so by the contracting club at the time the original contract for the show is signed and returned to the judge by the club, shall attempt to purchase advance fare Coach Class tickets that are generally non-refundable and that are usually substantially lower in cost than regular Coach Class tickets. <u>Judges must receive payment in advance of purchasing a ticket, especially domestic judges accepting</u>

	<u>assignments beyond the North American continent. Failure to obtain advance payment does not release a CFA club from its responsibility to reimburse a contracted judge for travel expenses.</u>
--	--

RATIONALE: All CFA clubs are responsible for payment of travel expenses as per the CFA Show Rules. Location should not be a factor. Air fares have increased steadily. Judges should not be expected, nor feel obligated to purchase tickets using their own funds, and then wait for reimbursement until after purchase. Judges shouldn't feel pressured to do this nor feel concerned about being invited to judge. The pressure may not be overt, but it does exist.

The majority of judges invest a considerable amount of time and effort to find the most inexpensive fares for clubs. Paying for tickets can put a strain on their budget and credit card. It is not unreasonable to expect a club to transfer funds before a judge makes a purchase. Communication is rapid and there are options to use to adhere to this policy.

Mrs. Baugh moved to approve the revised wording to 26.02b.2. Seconded by **Mr. Eigenhauser**, **Motion Failed.**

Rule # ARTICLE XXVI – JUDGING FEES AND EXPENSES; SHOW RULE: 26.02e.2 Judges Expenses	
Existing Wording	Proposed Wording
e. International Division shows: Judges contracted to judge shows in the International Division are required to receive negotiable payment for airline tickets prior to ticket being issued from the licensed contracted club in advance of the show. Judges failing to follow this procedure will do so at their own risk. CFA WILL NOT BE RESPONSIBLE for reimbursing judges for unpaid tickets.	e. International Division shows: Judges contracted to judge <u>non-CFA</u> shows in the International Division non-CFA shows are required to receive negotiable payment for airline tickets prior to ticket being issued from the licensed contracted club in advance of the show. Judges failing to follow this procedure will do so at their own risk. CFA WILL NOT BE RESPONSIBLE for reimbursing judges for unpaid tickets.
<p>RATIONALE: With the emergence of Europe as a new region, the former show rules requiring a judge to obtain advance payment for International shows needs to be addressed. All CFA clubs, regardless of location, are responsible for payment of travel expenses as per the CFA Show Rules.</p> <p>Judges under contract for non-CFA shows are required to obtain payment in advance of ticket purchase. Unlike CFA shows, the Association will not reimburse an individual who has not followed this procedure. This is a reinforcement of existing policy and pertains to all non-CFA shows, regardless of location. Unfortunately, there is a history of one or two CFA clubs using the existing wording as an excuse to renege on the responsibility to reimburse judges for tickets purchased in good faith. This modification removes that wording and restates that judges contracted for non-CFA shows, regardless of location, must obtain advance payment.</p>	

Withdrawn.

Mr. Newkirk moved that retired judges can judge CFA events without restrictions. Seconded by **Mr. Eigenhauser**, **Motion Carried.** Hannon, Anger and Miller voting no.

Mr. Newkirk amended the above motion to read, “Retired judges can judge non-scored rings at CFA events without restrictions.” Seconded by **Mr. Eigenhauser**, **Motion Carried.** Anger and Hannon voting no.

Mrs. Baugh moved to relicense all judges, except as follows. **Motion Carried.**

Relicense:

Dee Dee Cantley

3 yes (Miller, Shafnisky, Newkirk); 15 no

After an executive session discussion, **Mrs. Baugh** moved for an advisory ruling regarding bringing forward a second specialty applicant who qualified under the old custodial requirements (but not the new). Seconded by **Ms. Anger**, **Motion Failed.** Bizzell, Brown, Miller, Newkirk, Baugh, Meeker, Kallmeyer and Anger voting yes.

(9) PROTEST COMMITTEE.

Chair Mr. Kallmeyer moved to accept the Committee’s recommendation on the protests not in dispute. **Motion Carried [vote sealed].**

(10) CENTRAL OFFICE OPERATIONS.

No action items were presented.

(11) CFA COMMUNITY OUTREACH/EDUCATION.

Chair Ms. Miller presented no action items.

(12) ANIMAL WELFARE UMBRELLA – BREED RESCUE; BREEDERS’ ASSISTANCE; FOOD PANTRY.

No action items were presented.

(13) NATIONAL SHOW.

Mr. Eigenhauser moved that the National Show judging format be 4 allbreed and 6 specialty in all classes. Seconded by **Ms. Anger**, **Motion Failed.**

Mr. Eigenhauser moved that the National Show judging format be 10 specialty rings in the kitten classes (with championship and premiership staying at 6 allbreed and 4 specialty rings). Seconded by **Mr. Newkirk**, **Motion Carried.** Krzanowski and Brown voting no.

(14) CFA LEGISLATION COMMITTEE.

Chair Mr. Eigenhauser presented no action items.

(15) WINN FOUNDATION.

Liaison Mr. Eigenhauser presented no action items.

(16) SHOW RULES.

The following proposed Show Rule changes were presented:

Show Rule: Article VIII	
Current Version	Proposed Version
<p>Note: requests to restore wins voided by the Central Office or to receive credit for awards/points earned at a show but not posted to the cat’s record, due to the presence of an incorrect registration number or the lack of a CFA registration number in the catalog, can be considered only if a correctly completed registration application for the cat in question was received in the Central Office no later than 21 days prior to the opening day of the show in question. A correctly completed registration application is one which contains all the information necessary to register the cat, is accompanied by the proper fee, AND for which no registration impediment exists (i.e., genetic improbability, all kittens in litter already registered, etc.).</p>	<p>Note: requests to restore wins voided by the Central Office or to receive credit for awards/points earned at a show but not posted to the cat’s record, due to the presence of an incorrect registration number or the lack of a CFA registration number in the catalog, can <u>will be</u> considered only if a correctly completed registration application for the cat in question was received in the Central Office no later than 21 days prior to the opening day of the show in question. A correctly completed registration application is one which contains all the information necessary to register the cat, is accompanied by the proper fee, AND for which no registration impediment exists (i.e., genetic improbability, all kittens in litter already registered, etc.). <u>Such requests must be made to Central Office within 30 days after completion of the show or 10 days after completion of the show season, whichever comes first, and must include the correct registration number of the cat, the name and date of the show involved, and be accompanied by a fee of \$ 50.00 for point reinstatement.</u></p>
<p>RATIONALE As requested by the December board minutes, we are proposing the above change to allow exhibitors other than those with kittens, to have the points earned at a show credited to their cat when they fail to do a catalog correction at the show. It does require that such a request be made to central office in a timely manner (within 30 days of the show or within 10 days of the end of the show season, whichever comes first). Of note, the rule specifies the fee for such a change within the text of the rule. For the October board meeting, we propose to remove all fees from the rule text and include an extra page in the rule book with the listing of fees in effect as of the start of the show year. The CFA website would then need to be updated to have a fee schedule page as well.</p>	

Upon motion by **Mr. Newkirk**, seconded by **Mr. Eigenhauser**, **Motion Carried**. Shafnisky and Caell voting no.

Show Rule: Article XXXVII – Scoring	
Current Version	Proposed Version
<p style="text-align: center;">SCORING</p> <p>At the completion of the show season, a cat/kitten will be credited with the points from its highest 100 individual rings. Upon motion by **Mr. Newkirk**, seconded by **Mr. Eigenhauser**, **Motion Carried**. Shafnisky, Baugh, Meeker and Caell voting no.

Mr. Eigenhauser moved that the above rules will become effective May 1, 2012. Seconded by **Mr. Kallmeyer**, **Motion Failed**. Koizumi, White, Shafnisky, Shelton, Baugh, Meeker, Kallmeyer and Caell voting yes.

Mr. Eigenhauser moved that the above rules will become effective May 1, 2011 (and retroactive to May 1, 2011), giving those people who want to take advantage of the rules 30 days to do so (from February 5, 2012). Seconded by **Mr. Newkirk**, **Motion Carried**. White, Shafnisky, Shelton, Baugh, Meeker, Kallmeyer and Caell voting no.

Show Rule: 15.08.p	
Current Version	Proposed Version
15.08.p Placement of booths using electrical devices such as engraving machines, drills or saws, in either the benching area or the judging area is prohibited.	15.08.p Placement of booths using <u>noise producing devices</u> , electrical devices such as engraving machines, drills or saws, in either the benching area or the judging area <u>the show hall</u> is prohibited.
RATIONALE: As requested by the October board minutes, we are expanding the limitation on noise producing devices to cover the entire show hall and not just the area of exhibition. This may limit clubs from having some groups as vendors, or conversely, require the vendor to take orders to supply the product to the exhibitor/spectator via some other means than to hand it to them at the show hall.	

Upon motion by **Ms. Anger**, seconded by **Mr. Eigenhauser**, **Motion Failed**.

Existing Wording	Proposed Wording
2.a Region/area of residence is assigned based on the region number listed in the last show in which the cat/kitten earned points prior to or on the first full show weekend in January (see #5, 6 & 7).	2.a Region/area of residence is assigned based on the region number listed in the last show in which the cat/kitten earned points was <u>entered and present</u> prior to or on the first full show weekend in January (see #5, 6 & 7). <u>In those cases where the cat/kitten did not earn points, the owner shall notify central office of the date and show where the cat/kitten was entered and present within 10 days of the first full show weekend in January.</u>

RATIONALE: This change is being proposed as modified based on the minutes of the October Board meeting. The two concerns identified at that meeting were that a cat/kitten could be entered in a non-championship class, such as veterans or exhibition only, and that such an entry would qualify that cat/kitten to its new region. The second concern was that there was no deadline for notifying central office. A cat could change regions in September, and they would not have any time limit on such a notification to central office. Of course, given that this is such a rare occurrence, the alternative could be to just not change the rule at all, and let the Board deal with each of these situations (that seem to come up for at least one exhibitor per year) on a case-by-case basis. As was noted at the annual, the only cats/kittens that this usually will apply to are those in minority breeds, where the lack of competition makes the earning of a point in the breed ring impossible without bringing ones own competition.

Upon motion by **Ms. Anger**, seconded by **Mr. Eigenhauser**, **Motion Carried.**

Rule 26.02.e	Show Rules Committee per International Division Report to Board – request for resolution	
Existing Wording	Proposed Wording	
<p>e. International Division shows: Judges contracted to judge shows in the International Division are required to receive negotiable payment for airline tickets prior to ticket being issued from the licensed contracted club in advance of the show. Judges failing to follow this procedure will do so at their own risk. CFA WILL NOT BE RESPONSIBLE for reimbursing judges for unpaid tickets.</p>	<p>e. International Division shows: Judges <u>who are contracted to judge shows in the International Division outside of their country of residence</u> are required to receive negotiable payment for <u>airline transportation</u> tickets prior to ticket being issued from the licensed contracted club in advance of the show. Judges failing to follow this procedure will do so at their own risk. CFA WILL NOT BE RESPONSIBLE for reimbursing judges for unpaid tickets. <u>This rule is not applicable for travel between the United States and Canada.</u></p>	

RATIONALE: This show rule was originally written when we had no judges living in the International Division, and of course, after a US judge ended up being responsible for a very expensive ticket when a club cancelled the show. There are now five CFA allbreed judges living in Region 9 (Europe), and many more living in Japan. Unfortunately, the rule as currently written only applies to assignments in the International Division, so judges travelling to/from Europe after May 1, or to/from Japan today are not covered by this rule. The proposed revision was made to address the request of the Board at the October meeting to address travel in either direction from not only North America to Europe or Japan, but also from Japan to other countries in Asia. Reimbursement for unused tickets is already covered in show rule 26.02.c and 26.02.d if a club cancels the show. Also, the proposal clarifies that judges are not restricted by this rule, and thus the judge is free to purchase any kind of ticket (train, boat, automobile in addition to plane) if the judging contract was not marked to indicate that the judge could not do so.

ABYSSINIAN

1. **PROPOSED:** That CFA retain the 8-generation requirement for registration of an Abyssinian cat or kitten from another registering association via certified pedigree and retain the prohibition on any AOV class in the Abyssinian.

Information only – no action taken.

2. The Ocicat Breed Council has proposed an extension to the Abyssinian outcross without an end date. Here is their proposal, followed by the question about whether to support an open-ended outcross extension.

***PROPOSED:** Remove from the ALLOWABLE OUTCROSSES "for litters born before 1/1/2015"*

Proposed:

Ocicat allowable outcross breeds:

Abyssinian for litters born before 1/1/2015.

No action taken.

3. Would you support an extension to the outcross if it had an end date?

Information only – no action taken.

Mr. Newkirk moved that from this point forward, any breed that chooses (via ballot) to opt out may be exempt from the "one less generation" rule to have a recorded cat, subject to board approval. Seconded by **Ms. Miller**, **Motion Carried.**

Mr. Newkirk moved for permission for any breed council to conduct a one-time off-cycle ballot to opt out from the "one less generation" rule to have a recorded cat, subject to board approval. Seconded by **Mr. Eigenhauser**, **Motion Carried.**

OCICAT

1. **PROPOSED:** Remove from the ALLOWABLE OUTCROSSES “for litters born before 1/1/2015”

Ocicat allowable outcross breeds:

Abyssinian ~~for litters born before 1/1/2015~~

Motion Failed.

AMERICAN BOBTAIL

1. **PROPOSED:** Remove the following sentence from the Tail description and add a clarifying sentence.

Tail – is short, ~~being half length or less than that of the average cat.~~ The tail is flexible and expressive and may be straight, slightly curved or slightly kinked or have bumps along the length of the tail. Tail set in line with the top line of the hip. Tail to be broad at base, strong and substantial to the touch, never fragile. Straighter tails should exhibit a fat pad at the end of the tail. **Length** – Must be long enough to be clearly visible above the back when alert, not to extend past a stretched hind hock in length, with no one length preferred.

Motion Carried. Miller and Eigenhauser voting no.

American Bobtail proposed Registration Rule Changes

2. **PROPOSED:** Extend our allowable outcrosses to 2020.

ALLOWABLE OUTCROSSES: American Bobtail allowable outcross breeds: The single registration of domestic shorthair or longhair cats with a natural bobtail is acceptable upon written approval of the American Bobtail Breed Council Secretary, CFA Breeds and Standards Chairperson, and one CFA Allbreed judge. This shall apply to cats/kittens born between 1/1/02 and ~~1/1/2015~~ 1/1/2020. No tailless cats to be used in the American Bobtail breeding program. Absolutely no recognized breeds or wild blood to be permitted in the American Bobtail breeding program.

Motion Carried.

3. **PROPOSED:** Accept 3 generation certified pedigree from other associations for registration.

FOREIGN-CAT REQUIREMENTS (if different from above):

Date: 1/1/12	Accept 3 generation foreign registry certified pedigree for registration i.e. TICA
Date: 1/1/12	Accept 3 generation foreign registry certified pedigree for registration i.e. ACFA

Motion Carried.

Ms. Anger moved that this become effective immediately. Seconded by Mr. Newkirk, Motion Carried.

AMERICAN SHORTHAIR

1. **PROPOSED:** Accept **TICKED TABBY PATTERN** for championship competition with the following description:

TICKED TABBY PATTERN: the overall appearance is a cat without obvious markings on the body and with the distinct tabby striping on the head, neck, legs, and tail. The hair shafts on the body should be ticked with various shades of the marking color. The marking colors (stripes), ground colors and eye colors are the same as for the classic and mackerel. When viewed from above, the body does not have distinct spots, strips or blotches, except for darker dorsal shading. The lighter underside may show tabby markings. Face, legs, and tail must show distinct tabby striping. The cat must have at least one distinct necklace. The hocks are the same color as the tabby marking color.

All Ticked Tabbies and Ticked Tabbies and White (including vans) would be shown in the same color class.

No action taken.

2. **PROPOSED:** If #1 passes, change the description for **TABBY AND WHITE** to read as follows:

TABBY AND WHITE (including vans)*: white with colored portions, the colored portions conform to the currently established tabby classes; ticked, mackerel and classic. As a preferred minimum, the cat should have white feet, legs, undersides, chest and muzzle. An inverted “V” blaze is desirable.

No action taken.

3. **POLL:** Are you in favor of the outcross extension (Proposal 1) as proposed by the Devon Rex Breed Council?

Devon Rex Breed Standard Change Proposal #1:

Proposed: Devon Rex allowable outcross breeds: ~~Devon Rex~~, American Shorthair or British Shorthair. ~~Kittens born on or after May 1, 2013 may have only Devon Rex parents.~~

[see discussion under Devon Rex outcross proposal]

4. **POLL:** Are you in favor of the outcross extension (Proposal 2) as proposed by the Devon Rex Breed Council?

Devon Rex Breed Proposal Standard Change # 2 (this proposal is to be considered if # 1 does not pass):

PROPOSED: To extend the Devon Rex allowable outcrosses for 15 years.

Devon Rex allowable outcross breeds: ~~Devon Rex~~, American Shorthair or British Shorthair. Kittens born on or after May 1, ~~2013~~ 2028 may have only Devon Rex parents.

[see discussion under Devon Rex outcross proposal]

BIRMAN

1. PROPOSED change to HEAD:

HEAD: skull strong, broad and rounded. There is a slight flat spot just in front of ~~the ears~~ each ear and a slight flat spot on the forehead in between the ears.

Motion Carried.

2. PROPOSED change to NOSE and PROFILE:

NOSE: ~~medium in length and width, in proportion to size of head. Roman shape in profile. Nostrils set low on the nose leather.~~

PROFILE: ~~the forehead slopes back and is slightly convex. The medium length nose starts just below the eyes and is Roman in shape (which is slightly convex). The chin is strong, with the lower jaw forming a perpendicular line with the upper lip.~~

NOSE/PROFILE: the forehead slopes back and is slightly convex, with a slight flat spot on the forehead in between the ears. The nose is medium in length and width, in proportion to the size of the head. The nose starts just below the eyes and is Roman (slightly convex) in shape and profile. The Roman nose creates nostrils that are set low on the nose leather.

Motion Carried.

3. PROPOSED change to CHEEKS:

CHEEKS: full with somewhat rounded muzzle. Muzzle to be neither short and blunted nor pointed and narrow. The fur is short in appearance about the face, but to the extreme outer area of the cheek the fur is longer.

Motion Carried.

4. PROPOSED change to CHIN:

CHIN: strong and well developed, with the lower jaw forming a perpendicular line with the upper lip.

Motion Carried.

5. PROPOSED change to BODY:

BODY: ~~long~~ elongated and stocky, with a good muscular feel. Females may be proportionately smaller than males.

Motion Carried.

6. PROPOSED change to COAT:

COAT: ~~medium long to long, silken~~ long and silky in texture, with a heavy ruff around the neck. Slightly ~~early~~ curled on stomach. The fur is of such a texture that it does not mat.

No action taken.

7. PROPOSED change to COLOR EXCEPT GLOVES:

COLOR EXCEPT GLOVES: Body: even, with subtle shading when allowed on all colors/patterns of more mature cats. Strong contrast between body color and points.

Motion Carried.

8. PROPOSED change to PENALIZE:

PENALIZE: white that does not run across the front paws in an even line. Lack of white on all front toes. Persian or Siamese head type. Delicate bone structure. White shading on stomach and chest. Lack of laces on one or both back gloves. White beyond the metacarpal (dew) pad. (The metacarpal pad is the highest up little paw pad, located in the middle of the back of the front paw, above the third joint and just below the wrist bone.)

Motion Carried.

9. PROPOSED change to DISQUALIFY:

DISQUALIFY: lack of white gloves on any paw. Kinked or abnormal tail. Crossed eyes. Incorrect number of toes. Areas of pure white in the points, if not connected to the gloves and part of or an extension of the gloves. Paw pads are part of the gloves. Areas of white connected to other areas of white by paw pads (of any color) are not cause for disqualification. Discrete areas of point color in the gloves, if not connected to point color of legs (exception, paw pads). White on back legs beyond the hock. Eye color other than blue. White tail tips or chin spots.

Motion Carried.

10. PROPOSED change to BLUE POINT:

BLUE POINT: body bluish white to pale ivory, shading gradually to almost white on stomach and chest. Points, except gloves, deep slate blue. **Nose leather:** ~~slate color~~ slate blue.

Motion Carried.

11. PROPOSED change to CHOCOLATE POINT:

CHOCOLATE POINT: body ivory ~~with no shading~~. Points, except for gloves, milk-chocolate color, warm in tone. **Nose leather:** cinnamon-pink.

Motion Carried.

12. PROPOSED change to Lynx Point Color Classes:

Lynx Point Color Classes: ... There should be solid markings on the back of the hind legs above the ~~gauntlets~~ laces. A tail showing lighter and darker rings is preferred, but such markings may only occur on the underside and should not then be faulted. The tail may be ticked. The chin may be light colored but not white. A light colored “bow tie” should be evident just below the nose.

Motion Carried.

13. PROPOSED change to BLUE LYNX POINT:

BLUE LYNX POINT: body slate bluish to pale ivory, shading gradually to almost white on stomach and chest. Pale body color is desirable, preferably free from body markings; however, body shading of light ghost striping toning with the points is acceptable. Points, except for gloves, slate blue markings on a light beige agouti background. Solid markings on back of hind legs should be solid slate blue. Tail color, with the exception of the rings, should be slate blue. **Nose leather:** pink to brick colored outlined in slate blue to tone with the points. A solid nose leather to tone with the point color is acceptable.

Motion Carried.

Mr. Newkirk moved to reconsider. Seconded by **Mr. Eigenhauser**, **Motion Carried.**

Motion Failed.

14. PROPOSED change to SEAL-TORTIE POINT:

SEAL-TORTIE POINT: body mottled pale fawn to creamy white, shading gradually to lighter color on stomach and chest. Points, except for gloves, black/seal brown mottled with red. **Nose leather:** in accordance with one or both point colors.

No action taken.

15. PROPOSED change to BLUE-CREAM POINT:

BLUE-CREAM POINT: body mottled slate bluish white to clear white, shading gradually to almost white on stomach and chest. Points, except for gloves, ~~deep~~ slate blue mottled with cream. **Nose leather:** in accordance with one or both point colors.

Motion Carried. Miller voting no.

LILAC CALICO VAN: White with unbrindled patches of lilac and cream confined to the extremities; head, tail and legs. One or two small colored patches on body allowable. **Eye color:** Gold or copper. **Nose leather and paw pads:** to conform to the already established solid requirements; nose leather and paw pads may also be pink.

No action taken.

- 8. PROPOSED:** Define AOV color descriptions for the Pointed and Lynx Point colors to be added.

POINTED : Body: clear color is preferred with subtle shading allowed. Allowance should be made for darker color in older cats but there must be a definite contrast between body color and point color. The points, consisting of ears, legs, feet, tail, and mask show the basic color of the cat. The ideal mask extends from above the eyes down through the chin and stretches beyond the eyes from side to side.

CHOCOLATE POINT: body ivory. Points milk-chocolate color, warm in tone. **Nose leather and paw pads:** cinnamon pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

SEAL POINT: body even pale fawn to cream, warm in tone, shading gradually into lighter color on the stomach and chest. Points deep seal brown. **Nose leather and paw pads:** seal brown. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LILAC POINT: body glacial white. Points frosty grey with pinkish tone. **Nose leather and paw pads:** lavender pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

BLUE POINT: body bluish white, cold in tone. Points blue. **Nose leather and paw pads:** slate blue. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

FLAME (Red) POINT: body creamy white. Points deep orange flame to deep red. **Nose leather and paw pads:** flesh to coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

CREAM POINT: body creamy white. Points buff cream. **Nose leather and paw pads:** flesh to coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

TORTIE POINT: body creamy white or pale fawn. Points seal with unbrindled patches of red and/or cream. **Nose leather and paw pads:** seal brown and/or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

BLUE-CREAM POINT: body bluish white or creamy white. Points blue with patches of cream. **Nose leather and paw pads:** slate blue and/or pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

CHOCOLATE-TORTIE POINT: body ivory. Points chocolate with unbrindled patches of red and/or cream. **Nose leather and paw pads:** cinnamon pink and/or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LILAC-CREAM POINT: body glacial white. Points lilac with patches of cream. **Nose leather and paw pads:** lavender pink and/or pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LYNX POINT: Mask must be clearly lined with dark stripes, vertical and forming the classic “M” on the forehead; horizontal on the cheeks. The mask contains light rings around the eyes and dark spots on light whisker pads, clearly outlined in dark color edges. Ears solid with no stripes. “Thumbprints,” which are less apparent in dilute colors and kittens, should be visible on the back of the ears. Markings dense, clearly defined and broad. Legs evenly barred with bracelets. Tail barred with lighter underside. No striping or mottling on body.

SEAL LYNX POINT: body color pale cream to fawn, shading to lighter color on stomach and chest. Body shading may take form of ghost striping or ticking. Points: seal brown bars, distinct and separated by lighter background color; ears seal brown with paler thumbprint in center. **Nose leather:** seal brown or brick red. **Paw pads:** seal brown. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

CHOCOLATE LYNX POINT: body color ivory. Body shading may take form of ghost striping or ticking. Points: warm milk-chocolate bars, distinct and separated by lighter background color; ears warm milk-chocolate with paler thumbprint in center. **Nose leather and paw pads:** cinnamon pink or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

BLUE LYNX POINT: body color bluish white to platinum grey, cold in tone, shading to a lighter color on stomach and chest. Body shading may take form of ghost striping or ticking. Points: deep blue-grey bars, distinct and separated by lighter background color; ears deep

blue-grey with paler thumbprint in center. **Nose leather:** blue or old rose. **Paw pads:** blue. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LILAC LYNX POINT: body glacial white. Body shading may take form of ghost striping or ticking. Points: frosty grey with pinkish tone bars, distinct and separated by lighter background color; ears frosty grey with pinkish tone, paler thumbprint in center. **Nose leather and paw pads:** lavender pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

FLAME (Red) LYNX POINT: body color creamy white. Body shading may take form of ghost striping or ticking. Points: deep orange flame bars, distinct and separated by lighter background color; ears deep red, paler thumbprint in center. **Nose leather and paw pads:** flesh to coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

CREAM LYNX POINT: body color creamy white, significantly lighter in tone than the points. Body shading may take form of ghost striping or ticking. Points: bars of pale buff cream to light pinkish cream, distinct and separated by lighter background color; ears pale buff cream to light pinkish cream, paler thumbprint in center. **Nose leather and paw pads:** flesh to coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

SEAL TORTIE LYNX POINT: body color creamy white or pale fawn, shading to lighter color on stomach and chest. Body shading may take form of ghost striping or ticking and/or cream mottling. Points: seal brown bars, distinct and separated by lighter background color; ears seal brown with paler thumbprint in center. Random mottling of red overlays the markings of the points. **Nose leather and paw pads:** seal brown, brick red and/or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

CHOCOLATE-TORTIE LYNX POINT: body ivory. Body shading may take form of ghost striping or ticking and/or cream mottling. Points: warm milk-chocolate bars, distinct and separated by lighter background color; ears warm milk-chocolate with paler thumbprint in center. Random mottling of red overlays the markings of the points. **Nose leather and paw pads:** cinnamon pink and/or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

BLUE-CREAM LYNX POINT: body color bluish white to platinum grey, cold in tone, shading to lighter color on stomach and chest. Body shading may take form of ghost striping or ticking and/or cream mottling. Points: deep blue-grey bars, distinct and separated by lighter background color; ears deep blue-grey with paler thumbprint in center. Random mottling of cream overlays the markings of the points. **Nose leather and paw pads:** blue, old rose and/or pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LILAC-CREAM LYNX POINT: body color glacial white. Body shading may take form of ghost striping or ticking and/or cream mottling. Points: pale frosty grey with pinkish tone bars, distinct and separated by lighter background color; ears frosty grey with pinkish tone, paler thumbprint in center. Random mottling of cream overlays the markings of the points. **Nose leather and paw pads:** lavender pink and/or coral pink. **Eye color:** deep vivid blue. **Disqualify** for white toes, eye color other than blue.

LYNX POINT AND WHITE: seal lynx point and white, blue lynx point and white, flame lynx point and white, cream lynx point and white, tortoiseshell lynx point and white, blue cream lynx point and white, chocolate lynx point and white, lilac lynx point and white, chocolate tortoiseshell lynx point and white, and lilac cream lynx point and white. Where the lynx point pattern is expressed the pattern should conform to the already established lynx point pattern requirements, with allowances for the expression of white. As a preferred minimum, there should be some white on the feet, legs, undersides, chest and muzzle. Less white than this should be penalized proportionately. Symmetry of these markings, no matter the amount of color vs. white, is desired. White blaze desirable. **Nose leather and paw pads, eye color:** to conform to the already established lynx point requirements: nose leather and paw pads may also be pink.

No action taken.

- 9. PROPOSED:** Define the AOV color class (numbers) within the British Shorthair standard. Note: The registration of these colors will conform to the already established registration numbering system for solid, tabby, parti-color, bi-color and other British Shorthair colors. As these colors achieve the necessary levels for advancement to championship status, applications for advancement will be sent through the designated processes for review and acceptance. After acceptance for championship status the color will be moved from AOV to the correct color classification for showing purposes. The AOV class numbers will only be used to classify these colors for judging purposes when exhibiting.

COLORPOINT SHORTHAIR

1. **PROPOSED:** In the General section, add the statement, Balance and refinement are the essence of the breed, where all parts come together in a harmonious whole, with neither too much nor too little consideration given to any one feature to the middle of the section. The section would read as follows:

GENERAL: the Colorpoint Shorthair is a medium sized, svelte, refined cat with long tapering lines, very lithe, but muscular. Males may be proportionately larger. Balance and refinement are the essence of the breed, where all parts come together in a harmonious whole, with neither too much nor too little consideration given to any one feature.

Motion Carried.

2. **PROPOSED:** In the Color section, add the phrase or clearly-defined white undercoat near the end. Change to read as follows:

COLOR: Body: subtle shading is permissible, but clear color is preferable. Allowance should be made for darker color in older cats as Colorpoint Shorthairs generally darken with age, but there must be definite contrast between body color and points. Points: mask, ears, legs, feet, tail dense and clearly defined. All of the same shade. Mask covers entire face including whisker pads and is connected to ears by tracings. Mask should not extend over the top of the head. No white hairs or clearly-defined white undercoat in points.

Motion Carried.

3. **PROPOSED:** add Clearly-defined white undercoat in the points to the Disqualify Section as follows:

DISQUALIFY: any evidence of illness or poor health. Weak hind legs. Mouth breathing due to nasal obstruction or poor occlusion. Emaciation. Visible kink. Eyes other than blue. White toes and/or feet. Clearly-defined white undercoat in the points. Incorrect number of toes. Malocclusion resulting in either undershot or overshot chin.

Motion Carried.

4. **PROPOSED:** add , white spots or white marking anywhere on the cat except as appropriate for the tabby pattern on lynx points to the Disqualify Section as follows:

DISQUALIFY: any evidence of illness or poor health. Weak hind legs. Mouth breathing due to nasal obstruction or poor occlusion. Emaciation. Visible kink. Eyes other than blue. White toes and/or feet, white spots or white marking anywhere on the cat except as appropriate for the tabby pattern on lynx points. Incorrect number of toes. Malocclusion resulting in either undershot or overshot chin.

Motion Carried.

5. **PROPOSED:** add Lynx points may have white as appropriate for the tabby pattern around the eyes and nostrils, on the whisker pads, chin, upper throat area, and under the base of the tail. to the Color Section as follows:

COLOR: Body: subtle shading is permissible, but clear color is preferable. Allowance should be made for darker color in older cats as Colorpoint Shorthairs generally darken with age, but there must be definite contrast between body color and points. Points: mask, ears, legs, feet, tail dense and clearly defined. All of the same shade. Mask covers entire face including whisker pads and is connected to ears by tracings. Mask should not extend over the top of the head. No white hairs in points. Lynx points may have white as appropriate for the tabby pattern around the eyes and nostrils, on the whisker pads, chin, upper throat area, and under the base of the tail.

Motion Carried.

- 6. PROPOSED:** Effective May 1, 2012, remove prefixes 2280, 5280, 5380 for the Albino color from the breed and remove registration status for albino Colorpoint Shorthairs.

Motion Carried.

- 7. PROPOSED:** add the AOV colors (Seal Point, Blue Point, Chocolate Point, Lilac Point) in the Colorpoint Shorthair color classes as follows:

Solid Color Point	2278	2279
<i>(Cream or Red)</i>		
Lynx Point	2254	2255
<i>(Blue, Blue-Cream, Chocolate, Chocolate-Tortie, Cream, Lilac, Lilac-Cream, Red, Seal, or Seal-Tortie)</i>		
Parti-Color Point	--	2247
<i>(Blue-Cream, Chocolate-Tortie, Lilac-Cream, or Seal-Tortie)</i>		
AOV	2298	2299
<u><i>(Seal Point, Blue Point, Chocolate Point, Lilac Point)</i></u>		

Motion Carried.

- 8. POLL:** The following item is placed on our ballot by the Oriental Breed Council Secretary. Are you in favor of the Modification of Show Rule XXXII to allow variants to compete?

Modification of Show Rule XXXII to allow variants to compete:

(To be changed under the Colorpoint Shorthair and Oriental Shorthair Color Classes)

Pointed Orientals Shorthairs that meet Colorpoint Shorthair color descriptions are eligible to compete in Colorpoint Shorthair color classes. Refer to the Colorpoint Shorthair for a complete list of colors. These cats are also referred to as AOV Orientals. A division for pointed Oriental Shorthairs will be created for scoring purposes only and National/Regional points accumulated by pointed Oriental Shorthairs shown in Colorpoint Shorthair: color classes will count towards pointed Oriental Shorthairs wins, not Colorpoint Shorthair wins. ~~Shorthair variants of longhair Oriental breeding with the prefixes of 41xx and 42xx are not eligible for competition in Colorpoint Shorthair color classes.~~

EUROPEAN BURMESE

- 1. PROPOSED:** Continue with the current requirement that an 8 generation certified pedigree from any other North American registry, must be submitted in order for a European Burmese to be qualified for registration in CFA. A 5 generation certified pedigree is necessary from all other World Registries.

Information only – no action taken.

EXOTIC

- 1. PROPOSED:** Litters born from LH Exotic x LH Exotic and LH Exotic x Persian breedings shall eligible for registration in CFA.

Motion Carried. Wilson voting no.

PERSIAN – GENERAL

- 1. PROPOSED:** Litters born from LH Exotic x LH Exotic and LH Exotic x Persian breedings shall eligible for registration in CFA.

Motion Carried. Wilson voting no.

Mr. Newkirk moved that this become effective immediately. Seconded by **Mrs. Meeker**. [Central Office subsequently confirmed that they could immediately accommodate this service, and it is therefore effective immediately.]

JAPANESE BOBTAIL

- 1. PROPOSED:** change the total point allocations to include Body and Balance and Refinement as follows:

POINT SCORE

HEAD	20
TYPE.....	30
<u>BODY</u>	<u>20</u>
TAIL	20
COLOR and MARKINGS	20 10
COAT.....	10
<u>BALANCE and REFINEMENT.....</u>	<u>20</u>

Motion Carried.

- 2. PROPOSED:** Add to the GENERAL description of the Japanese Bobtail a description of the breed's overall type, it's balance, elegance and refinement as follows:

GENERAL the Japanese Bobtail should present the overall impression of a medium sized cat with clean lines and bone structure, well-muscled but straight and slender rather than massive in build. The unique set of its eyes, combined with high cheek bones and a long parallel nose, lend a distinctive Japanese cast to the face, especially in profile, quite different from the other oriental breeds. Its short tail should resemble a bunny tail with the hair fanning out to create a pom-pom appearance which effectively camouflages the underlying bone structure of the tail. Overall type, composed of balance, elegance and refinement, is the essence of the Japanese Bobtail breed. Taking all of the parts of the standard into account as a cohesive whole, the balance, elegance and refinement of the Japanese Bobtail creates an overall picture of the total cat, where all aspects of the standard come together in a harmonious whole, with neither too much nor too little consideration given to any one feature.

Motion Carried.

- 3. PROPOSED:** Clarify the TAIL section of the standard.

TAIL: the tail is unique not only to the breed, but to each individual cat. This is to be used as a guideline, rather than promoting one specific type of tail out of the many that occur within the breed.

The tail must be clearly visible and is composed of one or more vertebrae, with curves, angles, or kinks or any combination thereof. The furthest extension of the tail bone from the body should be no longer than three inches. The direction in which the tail is carried is not important. The tail may be flexible or rigid and should be of a size and shape that harmonizes with the rest of the cat.

No action taken.

- 4. PROPOSED:** Revise the COLOR section of the standard to remove the emphasis from (or preference for) any color or pattern over others and to add the dilute color description.

COLOR: No color or pattern is preferred over any other. ~~in~~ In the dominant colored bi-colors and tri-colors (MI-KE) any color may predominate with preference given to bold, dramatic markings and vividly contrasting colors. In the dilute colored bi-colors and tri-colors (MI-KE), any color may predominate, with preference given to soft, muted markings and gently contrasting colors. In the solid color cat the coat color should be of uniform density and color

from the tip to the root of each hair and from the nose of the cat to the tail. Nose leather, paw pads, and eye color should harmonize generally with coat color. Blue eyes and odd eyes are allowed.

Motion Carried.

- 5. **PROPOSED:** Add “excessively heavy bone” to the PENALIZE section. Change to read as follows:

PENALIZE: short round head, cobby build, excessively heavy bone.

Motion Carried.

- 6. **PROPOSED:** Add the following phrase to the Disqualify Section: “tail bone extending more than 3 inches from the body.” Change to read as follows:

DISQUALIFY: tail bone absent or tail bone extending too far beyond more than 3 inches from the body. Tail lacking in pom-pom or fluffy appearance. Delayed bobtail effect (i.e., the pom-pom being preceded by an inch or two of normal tail with close-lying hair rather than appearing to commence at the base of the spine).

Motion Carried.

- 7. **PROPOSED:** Revise the current Japanese Bobtail Registration Rules and the Japanese Bobtail Standard to allow registration of certain colors/patterns in the AOV Class.

REGISTRATION RULES:

REGISTER AS AOV:

The **JAPANESE BOBTAIL COLORS** will read as follow:

JAPANESE BOBTAIL COLORS

~~Solid colors~~

SOLID COLORS

WHITE: pure glistening white.

BLACK: dense, coal black, sound from roots to tip of fur. Shiny and free from any tinge of rust on tips.

RED: deep, rich, clear, brilliant red, the deeper and more glowing in tone the better.

BLUE: blue, lighter shade preferred. Sound from roots to tip of fur.

CREAM: one level shade of buff cream, without markings. Sound to the roots.

BLACK AND WHITE

RED AND WHITE/RED TABBY AND WHITE/RED PATTERNED and WHITE: (red areas may have tabby striping or spotting). The term “patterned” may be used with predominantly white cats if a specific tabby pattern cannot be determined, or in cats which may have a combination of traditional tabby patterns.

~~**OTHER TABBY AND WHITE/OTHER PATTERNED AND WHITE BI-COLORS:**~~

Blue and White, Cream and White, Brown Tabby/Patterned and White, Blue Tabby/Patterned and White, Cream Tabby/Patterned and White, Silver Tabby/Patterned and White, Dilute Blue Silver Tabby/Patterned and White, Cameo Tabby/Patterned and White, Dilute Cream Cameo Tabby/Patterned and White. The term “patterned” may be used with predominantly white cats if a specific tabby pattern cannot be determined, or in cats which may have a combination of traditional tabby patterns. Black Smoke and White, Blue Smoke and White, Red Smoke (Cameo) and White, Cream Smoke (Cream Cameo) and White.

MI-KE (tricolor): black, red, and white (red areas may have tabby striping or spotting).

OTHER MI-KE (tricolor) **COLORS:** Dilute Mi-ke (blue, cream and white [cream areas may be solid or tabby]); Patterned Mi-ke (areas of brown tabby and areas of red on white [red areas may be solid or tabby]); Dilute Patterned Mike (areas of blue tabby and areas of cream on white [cream areas may be solid or tabby]); Tortoiseshell and White; Blue Cream and white; Silver Patterned Mi-ke (areas of silver tabby and areas of red on white [red areas may be solid or cameo or cameo tabby]) ; Dilute Silver Patterned Mi-Ke (areas of blue silver tabby and areas of cream on white [cream areas may be cream cameo or cream cameo tabby]); Smoke Mi-ke (black, red and white. Any other colors or pattern or combination thereof except coloring showing the evidence of hybridization resulting in the colors chocolate, lavender, point-restricted (i.e. Siamese marking) or unpatterned agouti (i.e. Abyssinian coloring), or those colors with white.

Motion Carried.

LAPERM

- 1. PROPOSED:** change the CFA Registration Rules for the LaPerm to allow for CFA registration of any LaPerm registered in another cat registry. (Proposed new wording underlined)

CFA Rules for Registration (8-1-2010)

Section 3 - Registration via Certified Pedigree: Under certain circumstances, a cat registered with another recognized association may be eligible for CFA registration without prior CFA litter registration by the breeder. Application for registration can be made via certified pedigree if the cat's records meet the following requirements*:

1. The sire or dam is not CFA litter or individually registered, AND
2. The breeder is not currently a CFA registered breeder.

A cat is not eligible for individual registration by pedigree if:

1. The parents are both CFA registered, AND
2. The breeder is a CFA registered breeder.

Note: these rules apply only to cats being transferred to CFA from other associations in the U.S. or from Japan.

*Except Selkirk Rex and LaPerm. A Selkirk Rex or a LaPerm registered in another cat registry is eligible for CFA registration. A copy of the registration certificate must be provided to CFA with the request for registration. The "registration via pedigree" fee applies.

To obtain registration for cats eligible under this policy, a 5-generation certified pedigree (see "Note" for exceptions to the 5-generation requirement), issued by the registrar of the association in which the cat is currently registered, must be submitted for CFA files.

Pedigrees used for this type of registration will be accepted only from previously certified associations.

RECORDED CATS: Cats may be individually recorded for breeding purposes only. The requirements for recording are identical to those for individual registration via pedigree, except that one less generation of ancestry is required. Recorded cats may not be shown at CFA shows.

NOTE: The following breeds require certified pedigrees for the number of generations indicated in parentheses after the breed name: Abyssinian (8), American Wirehair (4), Balinese* (3 or 5), Burmese (8), Chartreux (4), Colorpoint Shorthair (3), Devon Rex (3), European Burmese (8), Korat (3), LaPerm (no Pedigree required, see * at beginning of Section 3), Ragdoll (3), Russian Blue (8), Scottish Fold (4), Selkirk Rex (no pedigree required, see * at beginning of Section 3), Siamese (8), Siberian (3), Sphynx(3), Tonkinese (3) and Turkish Angora (3). All other breeds require 5 generations.

*Only certain outcrossed Balinese/Javanese are eligible to be registered using a 3 generation pedigree. Contact the CFA Central Office for details. Individuals planning to import a cat or register a cat from a domestic association should contact the Central Office for information regarding requirements and documentation needed to begin the registration process. Titles and awards won in other associations will not be recorded or shown on CFA records.

Mr. Eigenhauser moved that this become effective immediately. Seconded by Ms. Anger, Motion Carried.

MAINE COON

1. **PROPOSED:** Revise Disqualify Section to disqualify for unregistrable tabby patterns. Remove the Abyssinian-type ticked tabby wording from the sentence on evidence of hybridization and move ticked tabby to the last sentence. This is, in essence, a housekeeping change.

DISQUALIFY: delicate bone structure. Undershot chin, i.e. the front teeth (incisors) of the lower jaw overlapping or projecting beyond the front teeth of the upper jaw when the mouth is closed. Crossed eyes. Kinked tail. Incorrect number of toes. White buttons, white lockets, or white spots. Cats showing evidence of hybridization resulting in the colors chocolate, lavender, or the Himalayan pattern; ~~or unpatterned agouti on the body (i.e. Abyssinian type-ticked tabby)~~. Unregistrable tabby patterns (i.e. spotted tabby and ticked tabby).

Motion Failed. Wilson, Newkirk and Baugh voted yes.

MANX

1. **PROPOSED:** Move all of the solid colors with white into the Bi-Color Color Class, with the exception of those judged in the Calico Color Class, and move all of the tabby and whites into a new Tabby and White Class.

BI-COLOR: ~~white with unbrindled patches of solid color—black, blue, red, or cream; white with mackerel or classic tabby patterns—brown, blue, red, or cream; white with either classic or mackerel brown patched or blue patched tabbies.~~ All recognized Manx solid colors with the addition of white (with the exception of Calico, Dilute Calico, Tortoiseshell & White, Blue-Cream & White which are to be shown in the Calico/Tortoiseshell & White class). Includes all expressions of the white spotting gene from low-white to van patterns. ~~All other recognized Manx colors with white to be shown in OMC class.~~ Cats with no more than a locket and/or button do not qualify for this color class. Such cats shall be judged in the color class of their basic color with no penalty for such locket and/or button. **Eye Color:** brilliant copper, odd-eyed, or blue-eyed.

TABBY & WHITE: All recognized Manx tabby colors and patterns with the addition of white. Includes patched patterns where applicable. Includes all expressions of the white spotting gene from low-white to van patterns. Cats with no more than a locket and/or button do not qualify for this class. Such cats shall be judged in the color class of their basic color with no penalty for such locket and/or button. Eye Color: to conform to already established tabby requirements with the addition of odd-eyed or blue-eyed.

3. PROPOSED: Add a Spotted Tabby Pattern description and modify the existing tabby colors/patterns to include spotted tabby.

SPOTTED TABBY PATTERN: markings on the body to be spotted. May vary in size and shape with preference given to round, evenly distributed spots. Body spots may subtly suggest a mackerel or classic pattern but may not be connected and preference given to spots in a random pattern. A dorsal stripe runs the length of the body. The stripe is ideally composed of spots. The markings on the face and forehead shall be typical tabby markings. Underside of the body to have vest buttons. Legs are barred. On the upper chest there are one or more broken necklaces.

BROWN PATCHED TABBY: ground color brilliant coppery brown with classic, spotted or mackerel tabby markings of dense black with patches of red and/or cream clearly defined on both body and extremities. A blaze of red and/or cream on the face is desirable. Lips and chin the same shade as the rings around the eyes. **Eye Color:** brilliant copper.

BLUE PATCHED TABBY: ground color, including lips and chin, pale bluish ivory with classic, spotted or mackerel tabby markings of very deep blue affording a good contrast with ground color. Patches of cream clearly defined on both body and extremities. A blaze of

cream on the face is desirable. Warm fawn overtones or patina over the whole. **Eye Color:** brilliant copper.

SILVER PATCHED TABBY: ground color, including lips and chin, pale silver with classic, spotted or mackerel tabby markings of dense black with patches of red and/or cream clearly defined on both body and extremities. A blaze of red and/or cream on the face is desirable. **Eye Color:** brilliant copper or hazel.

BLUE-SILVER TABBY (classic, mackerel, spotted): undercoat white, ground color, including lips and chin, pale clear bluish silver. Markings sound blue. **Nose leather:** blue or old rose trimmed with blue. **Paw pads:** blue or old rose. **Eye color:** green or hazel.

BLUE-SILVER PATCHED TABBY (classic, mackerel, spotted): undercoat white, ground color, including lips and chin, pale clear bluish silver. Markings sound blue with patches of cream clearly defined on both body & extremities. A blaze of cream on the face is desirable. **Nose leather:** blue or old rose trimmed with blue. **Paw pads:** blue or old rose. **Eye color:** green, hazel or brilliant copper.

SILVER TABBY (classic, mackerel, spotted): ground color, including lips and chin, pale clear silver. Markings dense black. **Nose leather:** brick red. **Paw pads:** black. **Eye color:** green or hazel

RED TABBY (classic, mackerel, spotted): ground color red. Markings deep, rich red. Lips and chin red. **Nose leather and paw pads:** brick red. **Eye color:** brilliant copper.

BROWN TABBY (classic, mackerel, spotted): ground color brilliant coppery brown. Markings dense black. Lips and chin the same shade as the rims around the eyes. Back of leg black from paw to heel. **Nose leather:** brick red. **Paw pads:** black or brown. **Eye color:** brilliant copper.

BLUE TABBY (classic, mackerel, spotted): ground color, including lips and chin, pale bluish ivory Markings a very deep blue affording a good contrast with ground color. Warm fawn overtones or patina over the whole. **Nose leather:** old rose. **Paw pads:** pink. **Eye color:** brilliant copper.

CREAM TABBY (classic, mackerel, spotted): ground color, including lips and chin, very pale cream. Markings buff or cream sufficiently darker than the ground color to afford good contrast but remaining within the dilute color range. **Nose leather and Paw pads:** pink. **Eye color:** brilliant copper.

Motion Carried.

4. PROPOSED: Add a Spotted Tabby Pattern description and modify the existing tabby colors/patterns to include spotted tabby using current Bi-Color and Other Manx Color definition.

BI-COLOR: white with unbrindled patches of solid color – black, blue, red or cream; white with mackerel, ~~or~~ classic or spotted tabby patterns – brown, blue, red, or cream; white with ~~either~~ classic, ~~or~~ mackerel or spotted brown patched or blue patched tabbies. Includes all expressions of the white spotting gene from low-white to van patterns. All other recognized Manx colors with white to be shown in OMC class. NORWEGIAN FOREST CAT

1. **PROPOSED:** Begin registration of Norwegian Forest Cats with the naturally occurring color AMBER and create an AOV Class in which to show cats of this color.

BREED NAME:

NORWEGIAN FOREST CAT

REGISTER AS AOV:

No AOV colors/patterns	
Effective 5-1-2012	<u>Amber</u>

DO NOT ACCEPT (cat to be registered or cats in background):

Fawn (1 st 3 gen)	Chocolate (1 st 3)	Cinnamon (1 st 3)	Amber (1st 3)
Lilac (1 st 3 gen)			

Motion Carried.

2. **PROPOSED:** Update the existing Norwegian Forest Cat Colors in the Standard to include the description of the AOV Color Amber.

ADD: to the end of the current color descriptions (following ANY OTHER NFC COLORS):

AOV COLORS:

AMBER: yellow recessive color that presents as dark honey-chestnut. Kittens will be warm brown with coats gradually maturing to amber color. **Nose leather:** dark brown/charcoal-black. **Paw pads:** dark brown or black

LIGHT AMBER (dilute of Amber): pale beige blonde. Kittens will appear blue with coats gradually maturing to light amber color. **Nose leather:** blue desirable. **Paw pads:** blue desirable.

AMBER TABBY (*classic, mackerel, spotted, ticked*): Ground color amber. Markings deep, rich amber. Kittens will appear as warm brown tabbies; amber color evolves with maturity. **Nose leather:** pink. **Paw pads:** pink as kittens, changing to dark brown or black as cat matures.

LIGHT AMBER TABBY (*classic, mackerel, spotted, ticked*): Ground color pale, beige blonde. Markings sufficiently darker to afford good contrast. Kittens will appear as blue tabbies; light amber color evolves as kitten matures. **Nose leather:** pink. **Paw pads:** pink as kittens, evolving to blue as cat matures.

AMBER TORTOISESHELL: amber with patches of red or intermingled area of red on body and extremities. Presence of several shades of red acceptable. Kittens appear as black/dark brown and red, with black portions becoming amber.

Motion Carried. Shafnisky voting no.

ORIENTAL

1. Coat Length Prefix Poll:

Would you like to have the ability to change the registration of an Oriental cat with a 4### prefix who, through genetic testing, is shown not to carry the longhair gene, to a 2###g prefix Oriental? (And conversely, correct any 2### registrations that are found to carry the long hair gene.)

Motion Carried.

2. **PROPOSED:** Modification of Show Rules 2.04 and XXXII to allow Pointed Oriental Longhairs to compete with Balinese/Javanese:

(To be added under the Balinese and Balinese/Javanese Color Classes and Oriental Color Classes in XXXII)

Pointed Oriental Longhairs that meet Balinese and Balinese/Javanese color descriptions are eligible to compete in Balinese and Balinese/Javanese color classes. Refer to the Balinese and Balinese/Javanese for a complete list of colors. These cats are also referred to as AOV Orientals. A division for pointed Oriental Longhairs will be created for scoring purposes only and National/Regional points accumulated by pointed Orientals Longhairs shown in Balinese and Balinese/Javanese: color classes will count towards pointed Oriental Longhair wins, not Balinese and Balinese/Javanese wins.

Show Rule 2.04: With the exception of qualifying longhair Exotics (which may be shown in Persian classes) and qualifying pointed Orientals (which may be shown in Colorpoint Shorthair, Balinese or Balinese/Javanese classes), each cat must be entered in the breed under which it is registered and each kitten must be entered in the breed under which it is registered or eligible to be registered.

Tabled.

3. **PROPOSED:** Modification of Show Rules 2.04 and XXXII to allow variants to compete (to be changed under the Colorpoint Shorthair and Oriental Color Classes):

Pointed Orientals Shorthairs that meet Colorpoint Shorthair color descriptions are eligible to compete in Colorpoint Shorthair color classes. Refer to the Colorpoint Shorthair for a complete list of colors. These cats are also referred to as AOV Orientals. A division for pointed Oriental Shorthairs will be created for scoring purposes only and National/Regional points accumulated by pointed Orientals Shorthairs shown in Colorpoint Shorthair: color classes will count towards pointed Oriental Shorthairs wins, not Colorpoint Shorthair wins. ~~Shorthair variants of longhair Oriental breeding with the prefixes of 41xx and 42xx are not eligible for competition in Colorpoint Shorthair color classes.~~

Tabled.

4. **PROPOSED:** Permit registration of Orientals via 3 generation certified pedigree.

CFA Rules of Registration Article II – Section 3 Registration via Certified Pedigree

To obtain registration for cats eligible under this policy, a 5-generation certified pedigree

(see “Note” for exceptions to the 5-generation requirement), issued by the registrar of the association in which the cat is currently registered, must be submitted for CFA files. Pedigrees used for this type of registration will be accepted only from previously certified associations. RECORDED CATS: Cats may be individually recorded for breeding purposes only. The requirements for recording are identical to those for individual registration via pedigree, except that one less generation of ancestry is required. Recorded cats may not be shown at CFA shows.

NOTE: The following breeds require certified pedigrees for the number of generations indicated in parentheses after the breed name: Abyssinian (8), American Wirehair (4), Balinese* (3 or 5), Burmese (8), Chartreux (4), Colorpoint Shorthair (3), Devon Rex (3), European Burmese (8), Korat (3), Oriental (3), Ragdoll (3), Russian Blue (8), Scottish Fold (4), Selkirk Rex (no pedigree required, see * at beginning of Section 3), Siamese (8), Siberian (3), Sphynx (3), Tonkinese (3) and Turkish Angora (3). All other breeds require 5 generations.

Motion Carried.

- 5. PROPOSED:** Add GOLDENS to shaded class, with changes to the standard as indicated.

(Under COAT COLOR - modify)

Motion Carried. Miller and Wilson voting no. Eigenhauser abstained.

BALINESE (INCLUDING JAVANESE)

- POLL:** The following item is placed on our ballot by the Oriental Breed Council Secretary. Are you in favor of the Modification of Show Rules 2.04 and XXXII to allow Oriental Longhairs to compete with Balinese/Javanese?

Modification of Show rules 2.04 and XXXII to allow OLH to compete with Balinese/Javanese:

(To be added under the Balinese and Balinese/Javanese Color Classes and Oriental Color Classes in XXXII)

Pointed Oriental Longhairs that meet Balinese and Balinese/Javanese color descriptions are eligible to compete in Balinese and Balinese/Javanese color classes. Refer to the Balinese and Balinese/Javanese for a complete list of colors. These cats are also referred to as AOV Orientals. A division for pointed Oriental Longhairs will be created for scoring purposes only and National/Regional points accumulated by pointed Oriental Longhairs shown in Balinese and Balinese/Javanese color classes will count towards pointed Oriental Longhair wins, not Balinese and Balinese/Javanese wins.

Show Rule 2.04: *With the exception of qualifying longhair Exotics (which may be shown in Persian classes) and qualifying pointed Orientals (which may be shown in Colorpoint Shorthair, Balinese or Balinese/Javanese classes), each cat must be entered in the breed under which it is registered and each kitten must be entered in the breed under which it is registered or eligible to be registered.*

RATIONALE: *CFA set a precedent for showing cats phenotypically when it allowed the longhaired Exotics to be shown with Persians, but scored as Exotics. They further strengthened this principle when it was decided to allow the pointed shorthair Orientals in the appropriate sixteen colors to be shown as Colorpoint Shorthairs and scored as Orientals. We are asking for the logical extension of this to cover the Oriental Longhairs.*

Currently the pointed Oriental Longhairs are used as an outcross for both divisions of the Balinese. Their offspring can be immediately registered as Balinese and shown; however, the parents remain listed as Oriental AOV's and do not enjoy championship status. Many breeders working with Balinese and Balinese/Javanese also work with Oriental Longhairs, and regularly interbreed them. However, they are unable to show their pointed Oriental Longhairs in CFA, and often turn to other organizations to register and show these cats. While the numbers of these cats may not be large, they are present and would increase the revenues for CFA clubs if allowed championship status.

RUSSIAN BLUE

1. **PROPOSED:** Should the Russian Blue registration rules CONTINUE with the 8 generation requirement for registration by pedigree or revert back to the pre-2002 requirement of 5 generations.

Information only – no action taken.

SIAMESE

1. **PROPOSED:** Should the Siamese registration rules CONTINUE with the 8 generation requirement for registration by pedigree or revert back to the pre-1996 requirement of 5 generations?

Information only – no action taken.

2. **PROPOSED:** Add the following phrase to the GENERAL section:

GENERAL: the ideal Siamese is a medium sized, svelte, refined cat with long tapering lines, very lithe but muscular. Males may be proportionately larger. Balance and refinement are the essence of the breed, where all parts come together in a harmonious whole, with neither too much nor too little consideration given to any one feature.

Motion Carried.

SPHYNX

1. **PROPOSED:** In Standard Section EYES: Remove negative statement.

EYES: Large, lemon-shaped, with wide open center while coming to a definite point on each side. Placement should be at a slight upward angle, aligning with the outer base of the ear.

Eyes to be wide set apart with the distance between the eyes being a minimum of one eye width. ~~Eye color immaterial.~~

Motion Carried.

2. **PROPOSED:** In Standard Section EYES: Add statement of eye colors allowed. “All colors” references in other areas of the standard are to be deleted.

EYES: Large, lemon-shaped, with wide open center while coming to a definite point on each side. Placement should be at a slight upward angle, aligning with the outer base of the ear. Eyes to be wide set apart with the distance between the eyes being a minimum of one eye width. ~~Eye color immaterial.~~ As no points are assigned to eye color, all eye colors are accepted and should be harmonious with coat/skin color.

Motion Carried.

3. **PROPOSED:** In Standard Section EYES: Add shape description to eye socket.

EYES: Large, lemon-shaped, with wide open center while coming to a definite point on each side. Placement should be at a slight upward angle, aligning with the outer base of the ear. Eyes to be wide set apart with the distance between the eyes being a minimum of one eye width. Lower eye socket (cheek bone) is distinctly rounded. Eye color immaterial.

No action taken.

4. **PROPOSED:** In Standard Section EYES: Add description of blue and mink eye color.

EYES: Large, lemon-shaped, with wide open center while coming to a definite point on each side. Placement should be at a slight upward angle, aligning with the outer base of the ear. Eyes to be wide set apart with the distance between the eyes being a minimum of one eye width. Eye color immaterial. Exceptions: Pointed pattern eye color should be brilliant blue; Mink pattern eye color should be vivid aqua.

No action taken.

5. **PROPOSED:** In Standard Section EYES: Transpose wording regarding eye set, to read more clearly.

EYES: Large, lemon-shaped, with wide open center while coming to a definite point on each side. Placement should be at a slight upward angle, aligning with the outer base of the ear. Eyes to be ~~wide set~~ set wide apart with the distance between the eyes being a minimum of one eye width. Eye color immaterial.

Motion Carried.

TONKINESE

1. **PROPOSED:** Split the Solid and Point competitive color classes which each contain 4 colors into 4 individual color classes each.

Blue Point	2630	2631
Champagne Point	2632	2633
Natural Point	2636	2637
Platinum Point	2638	2639
Blue Solid	2620	2621
Champagne Solid	2622	2623
Natural Solid	2626	2627
Platinum Solid	2628	2629

Motion Failed. Anger and Roy voting yes.

2. POLL: Are you in favor of the outcross proposal (Proposal 3) as proposed by the Burmese Breed Council?

***PROPOSED:** Allow the Burmese breed to be out-crossed to the Tonkinese breed for a period of 5 or 10 years.*

***RATIONALE:** The genetic health of the Burmese breed is currently at risk. Dr. Leslie Lyons reported in “The Ascent of Cat Breeds,” published in Genomics in 2008:*

“The Burmese and Singapura breeds have the lowest heterozygosity [genetic diversity] and the highest FIS [inbreeding coefficient] of any breed, reflecting the most intense inbreeding. ... Given these results, Burmese and Singapura breeders should be concerned about genetic diversity.”

In addition to Dr. Lyons’ genetic study, CFA statistics point towards a marked decline in registered Burmese. The number of Burmese kittens reported dropped from 987 in 2008 to 741 in 2010 (the most recent year for which data was available). This represents a 25% drop in just 2 years. Additionally, on an individual level, breeders are reporting less hearty litters, smaller adults, smaller litters, and immune system problems, all of which point towards inbreeding depression becoming more common.

The Tonkinese breed was developed using the Burmese breed. This breed, therefore, shares common characteristics in both type and origin. It is believed that allowing the Burmese breed to outcross to this breed along with native Thai cats (which as already been approved) will significantly increase our ability to restore the health and vigor of the Burmese breed with little to no impact on type.
